

University Policy: Prerequisite Override and Waiver Procedure

1. Purpose

This policy governs the process by which a student may request permission to enroll in a course without having completed its listed prerequisite(s).

2. Eligibility

A student may petition for a prerequisite override if they have completed equivalent coursework at another accredited institution, demonstrate equivalent knowledge through a placement exam, or have written support from the course instructor.

3. Petition Process

Students seeking a prerequisite override must submit a Prerequisite Override Petition to the Office of the Registrar, accompanied by written approval from both the course instructor and the department chair, no later than the add/drop deadline for the term in which the course is offered.

Petitions submitted without instructor approval will not be considered. Approved overrides are valid only for the specific term requested and do not permanently waive the prerequisite requirement on the student's academic record.

4. Appeals

A denied petition may be appealed once to the Dean of the relevant college within 10 business days of the denial notice.

5. Effective Date

This policy took effect January 15, 2021 and was last formally reviewed on that date.
